Safety

Dan Meyer (smashmethod)

You saw a time to come
Where the eyes of the world would see as one
You saw a time to come
Where all of our laughter is seen through the eyes of the sonAn' you'll get angry in this town
Cos' you've seen more than what's been found
You can't be too needy in this town
Cos' there's enough of that aroundSafety in lovers
Freedom from therein
Safety in lovers
And somewhere to beginYou saw a time to come
Where the eyes of the world will cry as one
You saw a time to come
Where all of our work's not done for the good of someAn' you'll get angry in this town
Cos' there's not more than what's been found
You can't be too needy in this town
Cos' there's enough of that aroundSafety in lovers
Freedom from therein
Safety in lovers
And somewhere to beginSafety in lovers
Freedom from within
Safety in lovers
And somewhere to begin
