Wolfgang RÃ¼bsam

As I stand at the edge of existence  
Nameless shores of infinity  
Perpetual unbirth unraveling distance  
Clandestine truths unveiledInborn imperfections preprogrammed shells  
Spawning from the maelstrom  
Mechanical drones feeding from thy mother  
God machine reproduceUntruth is this my fate  
Coerced my life laid to wasteUntruth is this my fate  
Coerced my life laid to waste  
All hail executionAs this dream comes to its grim end  
Blind pray to God to make them men  
As all hopes crumble truths unveiled  
The world we know's an abysmal hellDisturbed state of consciousness  
Incessant black madness  
Perpetual unbirth unraveling distance  
Clandestine truths unveiledDisturbed state of consciousness  
Incessant black madness  
Gyroscopic trance encompassing coma  
End me of this nightmare
