

Nothing to Do With Love

Kenny Wayne Shepherd

God we must be crazy
The whole world's been falling apart
I've never seen so much suffering
Or so many broken hearts And how people can hurt each other?
Lord I swear by the stars above
Ain't got nothing to do with love
Nothing to do with love You say you want my money
You wanna buy you a brand new car
You say you love me honey
I ain't seen no proof so far And the way you've been treating me darling
Doin' the things I've never heard of
It ain't got nothing to do with love
Nothing to do with love God we must be crazy
The whole world's falling apart
I never seen so much misery
Or so many broken hearts How people can kill each other
In the name of the Lord above?
It ain't got nothing to do with love
Nothing to do with love How people can kill each other
In the name of the Lord above?
It ain't got nothing to do with love
Nothing to do with love Nothing to do with love
Nothing to do with love
Nothing to do with love
Nothing to do with love Nothing to do with love
Nothing to do with love, with love
Nothing to do with love, with love
With love, with love, with love, with love
