# Rwanda

## OST Hotel Rwanda

Rwanda, oh you're moon shines bright
Rwanda, oh won't you be strongIt's the voice over Africa, so stop peregrination
Rwanda, overplanned genocide
Listen very closely to a half a million dead souls
'Cause once a week it hits your heart broken and blue
Yeah, like a lion
Tune in the transistor and listen to the news
It's complicated when facts come slowWhat's the difference to the orphan, orphan of the dead
When no more machine gun's striking and there's silence insteadMassdestruction, massconfusion
