

# Tomorrow Shine

## Feeder

Wishing for a summer without rain  
Seeing is believing for ourselves  
Breathing as we're sinking to the sandBut I will wait for her arms  
Then I can reach for the stars  
I will wait for her love  
Tomorrow shineWishing for a lover, not just a friend  
Reaching for a hand to pull me inBut I will wait for her arms  
Then I can reach for the stars  
I will wait for her love  
Tomorrow shine  
Shine on, shine onWaiting for a summer without rain  
Reaching for the starlet in the sky, againBut I will wait for her arms  
Then I can reach for the stars  
I will wait for her love  
Tomorrow shineBut I will wait for her arms  
Then I can reach for the stars  
I will wait for her love  
Tomorrow shine, tomorrow shine  
Tomorrow shine, tomorrow shine  
Tomorrow shine, tomorrow shine
