

# Beautiful Problem (feat. gnash & Maty Noyes)

## MOD SUN

[Maty Noyes:]

Where did you come from? How did you get here?

I tried to solve it, but my brain does not reply

How did you fall into my equation

Tried to subtract love, but it only multiplied

What a beautiful problem, you're my beautiful problem

What a beautiful problem, you're my beautiful problem[MOD SUN:]

Ever since I saw you, I know

You was a little bit crazy, but baby, maybe you're the one

Just take me I'm all you like a [?]

Walked straight through Hell just to get to Heaven

If you were standing there waiting, yeah

And I could go on living without you, but I won't, but I won't

And I could tell you all that, but I don't, but I don't, no And I gotta let you go and make your own mistakes

But I swear to catch you on the way down

And since the day we met, I knew we were meant to be

But I swear, I just can't explain how[Maty Noyes:]

Where did you come from? How did you get here?

I tried to solve it, but my brain does not reply

How did you fall into my equation

Tried to subtract love, but it only multiplied

What a beautiful problem, you're my beautiful problem

What a beautiful problem, you're my beautiful problem[MOD SUN:]

I ask myself, how did we end up here

Thinking 'bout all the things we did and done, yeah

We're a little different, I think it's terrific

Never been embarrassed

Introduced you to my parents, even took you to Paris

It could be so simple, you just gotta let go

And take all the issues, get 'em under control

Cause if there's one thing that I know

Is that all those little problems are really beautiful And I gotta let you go and make your own mistakes

But I swear to catch you on the way down

And since the day we met, I knew we were meant to be

But I swear, I just can't explain how[Maty Noyes (gnash):]

Where did you come from? How did you get here?

I tried to solve it, but my brain does not reply

How did you fall into my equation

Tried to subtract love, but it only multiplied

(What a beautiful problem, you're my beautiful problem  
What a beautiful problem, you're my beautiful problem)[Gnash:]

I write out replies to try and divide

You from my life, but it won't come out right

I thought I'd live my life with you by my side

I guess I'll admit I'm not good with goodbyes

Maybe inside, someday I'll find

A way to get you to get out of my mind

I thought I'd live my life with you by my side

I guess I'll admit I'm not good with goodbyes[Maty Noyes & gnash:]

What a beautiful problem, you're my beautiful problem

What a beautiful problem, you're my beautiful problem
