

Changeling

Simple Minds

Overground, underground, pulsating through
Street parade, day arcade, no cloning you
Uniform, won't conform, hero who dies
Find a boy, kill a toy, get no reply Changeling, well, changeling for you
They're coming out for you
Changeling, well, changeling for you
They're coming out for you Vision, lost, out of control, lost
Vision, lost, out of control, lost Down in the club, beau bells can ring
Look good in blue, help me to sing
Expose and fade away, contact erased
Call a friend, tailor made, do as I say Changeling, well, changeling for you
They're coming out for you
Changeling, well, changeling for you
They're coming out for you Vision, lost, out of control, lost
Vision, lost, out of control, lost Overground, underground, overground, underground
Down in the club, down in the club, down in the club, club
