

Leap of Faith

Big & Rich

I put myself on a limb
And I feel it giving way from the weight of the rain
If I brake or I bend
I get myself together again, put my face to the wind It might be a long, long way to my golden day
That's a chance I'm willing to take
There's no chain, no cage that I won't brake
In this long, long leap of faith I close my eyes
And I walk right to the edge, throw my hands to the sky
Oh, well, I'm not afraid
I'm not afraid to live this life through my dreaming eyes It might be a long, long way to my golden day
That's a chance I'm willing to take
There's no chain, no cage that I won't brake
In this long, long leap of faith To a rocket, I've been tied, I'm ready for the screaming ride
It's full of fuel and I just lit the fuse
I'm a ragin', burnin', ring of fire and I get hotter as I get higher
And I'm tearin' a hole right through this sky of blue Oh, there's no chain, no cage that I won't brake
In this long, long leap of faith
In this long, long leap of faith To a rocket, I've been tied, I'm ready for the screaming ride
It's full of fuel and I just lit the fuse
I'm a ragin', burnin', ring of fire and I get hotter as I get higher
And I'm tearin' a hole right through this sky of blue To a rocket, I've been tied, I'm ready for the screaming ride
It's full of fuel and I just lit the fuse
I'm a ragin', burnin', ring of fire and I get hotter as I get higher
And I'm tearin' a hole right through this sky of blue
I'm tearin' a hole right through this sky of blue
I'm tearin' a hole right through this sky of blue In this long, long leap of faith The stars have fallen, the sky is
callin'
The stars have fallen, the sky is callin' To a rocket, I've been tied, I'm ready for the screaming ride
It's full of fuel and I just lit the fuse
I'm a ragin', burnin', ring of fire and I get hotter as I get higher
And I'm tearin' a hole right through this sky of blue
