Devil On a Hog

Bruce Dickinson

You wanna know where legends live?
At the rainbow's end I'll be there
There's a place in inner space
That's where I'll get to youI'm not the shy retiring kind
Like a supernova for the blind
I used to sit at God's right hand
But I quit that show to do my one night standsComing outta nowhere I'm a Godhead riderYou won't see my face no more
My machine has left the floor
Leave my rivals in the dirt
I've seen your world and I got the shirtBefore I leave and go my way
I've loved it but I couldn't stay
There's nothing left for you to feel
Just remember meYou might see me in Tokyo
To the rings of Saturn, hey, let's go
And you could trip all the light with me
But your one time chance is never freeI'll see you baby once again
Maybe 3 score years and ten
I'll be driving a different ship
That's when I'll take you down, for your final tripComing outta nowhere I'm a Godhead riderYou won't see my face no more
My machine has left the floor
Leave my rivals in the dirt
I've seen your world and I got the shirtBefore I leave and go my way
I've loved it but I couldn't stay
There's nothing left for you to feel
Just remember meComing outta nowhere I'm a Godhead rider
Coming outta nowhere I'm a Godhead riderYou won't see my face no more
My machine has left the floor
Leave my rivals in the dirt
Seen your world and I got the shirtBefore I leave and go my way
I've loved it but I couldn't stay
There's nothing left for you to feel
Just remember me
