Fools

Charley Pride

Fools never learn you play with fire and you gonna get burn
You and I are fools we play with love so we gonna get burn
Fools that's what we are fools we've gone too far I know
But then love you come to me your eyes on fire you tempted me
Love knows no bound beggar or king it'll bring you down
Fools find love somehow fools we can't stop now I know
But then love this I know fool I may be I can't let go
Love this I know fool I may be I can't let you go fool I may be I can't let you go
