

# Broken Bones

Kaleo

[Chorus]

The devil's going to make me a free man  
The devil's going to set me free  
Yeah, the devil's going to make me a free man  
The devil's going to set me free  
Oh, the devil's going to make me a free man  
The devil's going to set me free  
The devil's going to make me a free man  
The devil's going to set me free[Verse 1]  
I've been down, deep Texas; Mississippi state  
Hoping things might go my way  
For every hard earned dollar I make  
There stands a white man just to take it away  
Some might say I talk loud, see if I care  
Unlike them, don't walk away from my fear  
I've busted bones, broken stones, looked the devil in the eye  
I hope he's going to break these chains[Chorus]  
Yeah, the devil's going to make me a free man  
The devil's going to set me free  
The devil's going to make me a free man  
The devil's going to set me free  
Yeah, set me free[Verse 2]  
Another hard day, no water, no rest  
I saw my chance, so I got him at last  
I took his six shooter, put two in his chest  
He'll never say a word no more  
Oh, he'll never say a word no more[Bridge]  
The devil got him good for sure  
Ain't got no place to call a home  
Only chains and broken bones  
Ain't got no place to call a home  
So come on Lord, what you waiting for?  
Ain't got no place to call a home  
Only chains and broken bones  
Ain't got no place to call a home  
So come on Lord, won't you take me now?[Chorus]  
The devil's going to make me a free man  
The devil's going to set me free  
The devil's going to make me a free man

The devil's going to set me free
