

# Coming Home

## Iron Savior

Lost in the dark milleniums ago  
Where is the place where's the place called home  
On fire they rode to flee from the fall  
Their future was doomed they've foreseen it all  
Mythical world of the ancient empire  
secret and hidden but some day we shall return  
Ancient calls from anywhere in time  
we have to follow the sign

Distant voices, sources unknown

Where to they lead us

Where will we go

On the scent for the lost  
Coming home  
Chasing a shadow in stardust and haze  
Where will we find traces of our race  
The engines are roaring we're leaving ground once more  
is it for real, will we fail like so often before  
Ancient calls from somewhere in time

we have to follow the sign

Distant voices, sources unknown

Where to they lead us

Where will we go

On the scent for the lost

Coming home  
Mythical world of the ancient empire

is it for real, will we fail like so often before  
Ancient calls from somewhere  
Star of the old guide us, give us hope  
Star
