

# Blue Kiss

Jane Wiedlin

A blue kiss coloring me goodbye  
A new kiss could never feel so fine  
Tomorrow I'll be livin' in black and white  
Why does it have to be such a blue kiss  
When I kiss you  
Now I color my world with a blue kiss  
I've got kisses for you  
Red lips kissin' away my fears  
A blue kiss bringin' me back to tears  
Why does it have to be such a blue kiss  
Yea, these kisses are blue  
Now I color my world with a blue kiss  
I've got kisses for you  
A prism of love surrounded us  
Don't you see what our hearts knew  
How can you chose a one-color world  
When you know that I've got a rainbow for you  
Last night a spectrum filled the sky  
This morning it shattered with your goodbye  
Why does it have to be such a blue kiss  
When I kiss you  
Now I color my world with a blue kiss  
I've got kisses for you
