See You Fall

[How to Dress Well](#)

I knew I wanna see you fall
I knew somehow the wind will roam
I wanted to buy your stewing song
Show you what friends are fromAnd we'll never be better than that
And you're always on my bed
And we're in love with those things we thought
Love that thing, love that thing we've becomeAnd now we see strange, dark places
Our dark places, me against the wall
When the hover faces, I know you faked it
I got you against the wallYeah, strange reputation so turn off faces
Throw flowers against the door
Remember saying clear out the basement
So dark places insideAnd I wanna see you crawl
And know something that the world won't know
And you wanted to bounce inside
And no one could find a cryAnd me, I will never be better than that
And you, you will never be done with the fate
And we, we will remember what we said to each other
And we're in love with those things we thought
Love that thing, love that thing we've becomeAnd now we see strange, dark places
Our dark places, me against the wall
When the hover faces, I know you faked it
I got you against the wallYeah, strange reputation so turn off faces
Throw flowers against the door
Remember saying clear out the basement
So dark places inside
