Flutter (Feat. Madi)

Virtual Riot

Release me
Take away the fear inside
Sincere time
How it pulls upon my life
You wash out
These thoughts to cloud my head
Won't you try
And make yourself a part of the rideCause they might say you'll catch a cold
It could tells right our way, we're here
Break away from those tears now
That make us lose who we areAvoid my mind
And all its shapes and colors
Instead a big day
In all my heart, it flutters
In waves cause these pulses that pull out this ride
AutomateCause this feels might be too loud
There's a toxic taste in the atmosphereIt's called surprise, but this is
I need to know a good day
What's here and what's thereCause they might say you'll catch a cold
It could tells right our way, we're here
Break away from those tears now
Make us lose who we areAvoid my mind
And all its shapes and colors
Instead a big day
In all my heart, it flutters
Woah, woah
Woah, woah
Woah, woah
Woah, woah
Woah, woah
Woah, woah
