

Looking In Your Eyes

Suicidal Tendencies

I see destruction as it rages through your veins
I see depression as it fills your heart with pain
I see the cure you found for artificial peace
I see your body rot, your solution now has it's feast And now I look, I look in your eyes
Looking in your eyes, in your eyes
Looking in your eyes What I see in your eyes
I can see, they tell no lies
Looking in your eyes
I see salvation oh so close but yet so far I see the glimmering of the holy star
I see your future, it's a nightmare and a lie
But you refused my help
Now I have no more strength to try Now I see, I see the lies
Looking in your eyes
In your eyes I see the lies What I see in your eyes
Well, I can see, you tell no lies
Looking in your eyes
Looking through my eyes Well, I would die for you
I've died enough now I'm through
But one day you will see
What won't but what should B T F, please stay
