

# While All The Vultures Feed

## Incubus

The future is on fire, we're of a dying breed  
Don't understate our relevance  
We're the eyes in the wolves  
And we witness the vultures feed, yeah  
Stay wide awake, stay wide awake, yeah  
Make haste 'cause predators proceed  
Stay wide awake, stay wide awake, yeah  
While all the vultures feed  
Like angles in a sphere, we're of our own design  
No more perpetual renaissance  
With our words we make shapes  
And our angles can align, yeah  
Their appetites callous and menacing  
It humbles me  
When prey softly outwits its predator  
Such is a sight to see  
Stay wide awake, stay wide awake, yeah  
Make haste 'cause predators proceed  
Stay wide awake, stay wide awake, yeah, oh  
While all the vultures feed  
Stay wide awake, stay wide awake, yeah  
Make haste 'cause predators proceed  
Stay wide awake, stay wide awake, yeah, oh  
While all the vultures feed  
While vultures feed, while the vultures feed  
While the vultures feed
