

Picture

Porcelain Raft

I know, i know
inside this room lots of people looking at you
but just me could see you through
I know, i know
they are waiting for you, show them what you got
you have working good for so long
Yes i do
i know, i know
you dont need help, you can make it yourself
but just for today would you let it go
it will make you feel better for sure
the world wont collapse thats all i know
a beautiful picture you always wanted to draw
I know, i know
today is very hard not to go insane
yet your heart keep holding on
a beautiful picture you always wanted to draw
You dont need any help, yes i know
sure it will take so long
but i know you will get it done
yes i know you will get it done
