

# Land of Hope

## Innerspace

Sleep, my little one  
You can sleep without worries  
Life is long  
Love is infinite

For a little while  
Arm yourself with courage  
The flaws will give way  
So please child don't give up

Some people take life as  
A never-ending ride in an amusement park  
The adventure seems so real  
Up and down, round and round

Time will soon be kind for you  
It's gonna be your chance to discover the world  
The moment to understand how  
The shadows come and go
