

Not Coming Back

[Daniel Powter](#)

I dont believe in any long goodbyes
I got my motor on from all that you cried
And you know that its much too much So open the skies and let it rain on me
I got the top pulled down so it can wash me clean
And you know that its much too much Im not coming back again
No more advice from my so called friends
Im not coming back no more Driving away, youre in the rear view mirror
And as you fade away, you start to disappear
And you know, baby, baby come on And Ive been down with the lowest of low and when I
Got back up man I got nothing to show, show for you
It was much too much Im not coming back again
No more advice from my so called friends
Im not coming back no more You fooled me for the last time
I wont wait for you to make up your mind
Same old story now
Its tearing me up from the inside, you gotta know Im not coming back again
No more advice from my so called friends
Im not coming back anymore
I'm not coming back no more Baby I was born to run
I won't be back to kiss you goodnight
I won't be back and you don't feel right
I should've known they'll make a fool out of me
[Incomprehensible] and now I won't be back again I won't be back, baby I won't be back
I won't be back and you don't feel right
I should've known they'll make a fool out of me
[Incomprehensible] and now I won't be back again
