

# Reflections

**Tad Morose**

In the mirror I see myself A desperate man who's falling apart My own  
reflections cannot give me no answers  
I stare at the stars Out through my window I wonder will they all fall down  
So high above me So out of touch Why does it have to be like this  
Reflections  
In the mirror I see shadows of someone Is it me or someone else My mind is  
twisted Is it just an illusion
