Azora

Start giving, all over, heart's in my mouth when I talk. I loved you so,
fought together, warm lover, s'like when you borrowed my jumper, you stole. I let it go. Bear with me i'm â€¦

How could you go? It's needless.
Having a go. I been low. Oh I was yet to see.
How could you go? It's needless.
Having a go. I been low. Oh I was yet to see it

Start living, as though you meant it. Oh why did you push? I made you better I know. But sometimes people grow apart.
We walked thus, in foreign fields. I felt your touch, but I did not feel at all - it's something deeper

Only God will think this
I will beseech him, let it die.
I walked out this evening, don't think I won't.
There's nothing below me
God I know it's already dead.
