

# Hora

## Psamim

It's all about identity  
Construction of a family  
Of difference and simile  
What I give you and you give me It's all about identity  
This tribal sense of dignity  
Of tolerance and unity  
Of prejudice and bigotry It's all about identity  
A web of who we'd like to be  
Let's cut and paste our memory  
A dark and timeless industry It's all about identity  
A strength and solidarity  
A dazed, confused desire to find  
A place and time in history It's all about identity  
Or how the sheer majority  
Impose a predetermined badge  
And wait to judge you silently It's all about identity  
A retrospective odyssey  
But where I live and who I meet  
Are stronger in defining me
