Making Waves

Golden Smog

Saw your eyes light up the horizon
Just like the sun, still it's new
Bodies being hung for drying
Now there's one, guess they're throughMaking waves in the bathroom
The time it saves, it's the last roomHearing sirens on the street
Getting closer, please don't stop
Race won't be with these feet
Even closer comes the dropMaking waves in the bathroom
The time it saves, it's the last roomOoh, don't leave me now
Ooh, don't leave me now
Ooh, don't leave me now
Ooh, don't leave me nowIn the chair I thought you were sleeping
Your eyes rolled back, your lips blue
It was a drag to be dragging
You down the hall 'til you came toMaking waves in the bathroom
Times it saves, it's the last roomAre you in there?
Hello, hello, hello
(I'll be out in a while)Are you in there?
Hello, hello, hello
(I'll be out in a while)Are you in there?
Hello, hello, hello
(I'll be out in a while)Are you dying? HelloOoh, don't leave me now
Ooh, don't leave me now
Ooh, don't leave me now
Ooh, don't leave me now
