almost dead

My Beloved

No more gods, no more graves
Are you friend or fiend?
No more life, no more death
Somewhere in between

No more gods, no more graves
Are you friend or fiend?
No more life, no more death
Somewhere in between

Well, we're almost dead
Almost dead
Almost dead to the world
Almost dead, almost dead
Almost dead to the world

Heaven can't save us
Hell is a joke
No place left to go
What you see you can not believe
But when we rise you'll know

Well, we're almost dead
Almost dead
Almost dead to the world
Almost dead, almost dead
Almost dead to the world

Well, we're almost dead
Almost dead
Almost dead to the world
Almost dead, almost dead
Almost dead to the world

Well, we're almost dead
Almost dead
Almost dead to the world
Almost dead, almost dead
Almost dead to the world

Well, we're almost dead
