

# Give Up

## Hot Hot Heat

They all warned me to stay out  
Stubborn, stupid, scarred and proud  
Don't try to warn me  
Don't try to warn me  
Don't try to warn me I say  
I make my own mistakes  
Don't care how long it takes  
I'll make my own mistakes again  
But all I know is all I got is Frustration, frustration  
I hate this vacation  
So give up (give up)  
Give up (give up)  
I've got to get away from here  
It's killing me just thinking 'bout Frustration, frustration  
I hate this vacation  
So give up (give up)  
Give up (give up)  
I've got to get away from here  
It's killing me just thinking 'bout it They all warned me of her crime  
Cut your losses while there's time  
Don't try to warn me  
Don't try to warn me  
Don't try to warn me, i said  
I make my own mistakes  
You don't know what she's like  
I'll make my own mistakes again  
But all I know is all I got is Frustration, frustration  
I hate this vacation  
So give up (give up)  
Give up (give up)  
I've got to get away from here  
It's killing me just thinking 'bout Frustration, frustration  
I hate this vacation  
So give up (give up)  
Give up (give up)  
I've got to get away from here  
It's killing me just thinking about it They all warned me to stay out  
Whoaaa  
Stubborn, stupid, scared and proud

Don't try to warn me  
Don't try to warn me  
Don't try to warn me  
Don't try to warn me  
Don't try to warn me I've got Frustration, frustration  
I hate this vacation  
So give up (give up)  
Give up (give up)  
I've got to get away from here  
It's killing me just thinking about Frustration, frustration  
I hate this vacation  
So give up (give up)  
Give up (give up)  
I've got to get away from here  
I've got to get away from here  
It's killing me just thinking about it so...
