Down, down, down
Down, down
Down, down, down
Down, downLet's hop a train
And stow away down in Mexico
And on the way as music plays
We'll let our beards grow tallShe don't like me singing songs
She don't wanna sing alongIt's still the same
And she only likes me when I'm gone
It's still the same
And she only likes me when I'm goneDown, down, down
Down, downI spilled my drink across the bar
Said, "Baby what's your name?"
Her boyfriend stood
And smashed a bottle over my headShe don't like me singing songs
She just wanna sing alongIt's still the same
And she only likes me when I'm gone
It's still the same
And she only likes me when I'm goneDown, down, down
Down, down
Down, down, down
Down, downShe don't like me singing songs
She just wanna sing alongDown, down, down
Still theShe don't like me singing songs
She just wanna sing alongIt's still the same
And she don't like me when I'm gone
It's still the same
And she only likes me when I'm goneIt's still the same
And she only likes me when I'm gone
It's still the same
And she only likes me when I'm goneDown, down, down
Down, down
Down, down, down
Down, down
So, then I'm gone
