

# Jealous Lover

## Rainbow

Lost and lonely  
Clouds hide the sun  
Out on the highway  
It's all hit and run Cold empty nights  
Demons in my head  
It's something I did  
Or baby something you said And it's hard to discover  
That you're just another  
Jealous lover  
And it's so tough to take  
But you're making no mistake  
Jealous lover  
Oh yeah  
Don't want no other Shades of red  
Eyes of green  
Sees black and white  
And there's no in between Ask me no questions  
I'll tell you no lies  
Still you keep thinking  
That it's all alibis And it's hard to discover  
You're like any other  
Jealous lover  
And you're saying I'm a fake  
Don't you making a mistake  
Oh, no no Every day it's the same  
The faces and the names  
How long can I go on  
Playing this game So I live for the nights  
Soft candle lights  
Today they love you  
Then tomorrow they might And it's hard to face  
Someone else takes your place  
Jealous lover  
And they're saying that's the brakes  
But I got what it takes  
Jealous lover, ohh oh  
Jealous lover  
Jealous lover Don't need no, no no  
Don't need no other

Jealous lover, yeah

Jealous lover
