Hard Drive

Griffinilla

Darling I can show you where my love hides
It's a heart beat
On a hard drive
Yeah, I'm dancing with your soul in my sights
It's a showdown
In the spotlight
Honey glamours got me out of my mind
Like a kill switch
on my back side
And the cameras got you frozen in time
Like a save state
In a game file

I am dreaming like no Dreemurr ever could
There's my name! up in lights!
15 minutes won't suffice, baby

I'm sorry but it's for the greater good
Raise the stakes! Pick a fight!
And these ratings might ignite, baby!

You've got a lot of nerve, my friend
What day and age you think we're living in?
You've got a lot to learn human
Did you really think the doc was in?

Darling I can dhow you where my love hides
It's a heart beat
On a hard drive
Yeah, I'm dancing with your soul in my sights
It's a showdown
In the spotlight
Honey glamours got me out of my mind
Like a kill switch
On my back side
And the cameras got you frozen in time
Like a save state
In a game file

Electric personality

Persona fabulosity
With romance, bloodshed, and intrigue
Give the people what they need!
A star! For humanity!
My face! On a million screens!
Now turn your heel but don't you flee
Who needs arms with legs like these?

Get a load of my sequins
Strut my stuff, you know I'm glamorin'
You're gonna go to the dungeon
Did you really think that I won't win?

Darling I can show you where my love hides
It's a heart beat
On a hard drive
Yeah, I'm dancing with your soul in my sights
It's a showdown
In the spotlight
Honey glamours got me out of my mind
Like a kill switch on my backside
And the cameras got you frozen in time
Like a save state
In a game file

It's a heart beat
On a hard drive

It's a heart beat
On a hard drive

It's a heart beat
On a hard drive

It's a heartbeat
On a hard drive

Oh, yes
