

Five And Dime

Joshua Radin

Everyone in is town
Saying the same thing
Wait 'til tomorrow
See what that brings
Moon rises
nbrings surprises to this small town
Tryna wait tonight
Til the midnight
Talks her loud
Remember the simple times
When a girl was on her own
And the world was full of charm
And the sun was coming up
To a better day
She says take me back
To a time i knew before
Before I open
My eyes and knew
I wanted more

And it waits the line
Of five and dime
The man stare, she says
She doesn't mind
You set miles to feet
And she wears it on the sleep
And remebers the day she said
She was gonna leave
She says take me back
To a time I knew before
Before I open my eyes and knew
I wanted more

Uuh, it's doubt to follow
Time's not easy to swallow
We're all lone for yesterday
We said take us back
To a time we knew before
Before I open my eyes and knew
I wanted you
