

You Were Right

Built To Spill

You were wrong when you said
Everything's gonna be alright
Yeah, you were right when you said
Everything's gonna be alright You were right when you said
All that glitters isn't gold
You were right when you said
All we are is dust in the wind You were right when you said
We're all just bricks in the wall
And when you said
Manic depression's a frustrating mess You were wrong when you said
Everything's gonna be alright
Yeah, you were wrong when you said
Everything's gonna be alright You were wrong when you said
Everything's gonna be alright You were right when you said
You can't always get what you want
You were right when you said
It's a hard rain's gonna fall You were right when you said
We're still running against the wind
Life goes on long after the thrill of living is gone
You were right when you said
This is the end Do you ever think about it?
Do you ever think about it?
Do you ever think about it?
Do you ever think about it?
