

# Prince of Peace

## The O.C. Supertones

Does the world ever seem like a nightmare?  
Some suffer but the other ones don't care  
What does it matter if it's going on elsewhere  
Like it doesn't happen if it's not happening here  
There's a girl with only a mother  
And her dad just won't seem to bother  
No love, so she finds a lover  
Now she has a child who doesn't have a father  
I hope the Prince of Peace is coming soon  
Yeah, I hope the Prince of Peace is coming soon  
We'll learn to make a plowshare from a gun,  
'Cause we won't need them when the Kingdom comes  
When the communists turn into the terrorists,  
But the Axis came before the Soviets  
And before that, came the confederates  
Well always have a war to fight; you can count on this  
With every cure, there comes another sickness  
The earth dies with every bit of progress  
We've gone deaf to the cries of oppressed  
What we need is Jesus to redeem us  
I hope the Prince of Peace is coming soon  
Yeah, I hope the Prince of Peace is coming soon  
We'll learn to make a plowshare from a gun,  
'Cause we won't need them when the Kingdom comes  
No, we won't need them when the Kingdom comes  
Now the world doesn't work, 'cause we've broken it  
And we need dope or Prozac just to cope with it  
Now the beast speaks his peace to the congress  
Plans to propagate "proposition 666"  
Hitler's still alive in the knives of abortionists  
And the news twists the truth like contortionists  
And they wonder what happened to humanity  
You say peace, but were headed for calamity  
I hope the Prince of Peace is coming soon  
Yeah, I hope the Prince of Peace is coming soon  
We'll learn to make a plowshare from a gun  
'Cause we won't need them when the Kingdom comes  
We long for the day when we will see...  
The heavens and the earth as they should be
