

Discovery

Mike Oldfield

When you want the score
When you need a helping hand
When you find closed doors
When you're back where you began
Keeping those secrets
Telling those lies
Can anybody tell me what's the big surprise?
Discovery
Who has the chance to know it all?
Discovery
Give me some truth, stop makin' me cry
Discovery
How can you sleep?
How can you turn away?
Thinking so cheap
Someday you're gonna pay
You're keeping secrets
I can see in your eyes
Can anybody tell me why the big disguise?
Discovery
Who has the chance to know it all?
Discovery
Give me some truth, stop makin' me cry

Discovery
Discovery
Who has the chance to know it all?
Discovery
Give me some truth now, stop makin' me cry
Please, give me some chance
Give me some confidence
Would you please set me free?
Oh, someone deliver me
Who's keeping secrets?
I got my spies
Does anybody think we live in paradise?
Discovery
Who has the chance to know it all?
Discovery

Give me some truth now, stop makin' me cry

Discovery

Who has the chance to know it all?

Discovery

Give me some truth now, stop makin' me cry

Discovery
