

Famous Last Words Of A Fool

[George Strait](#)

I told her I wouldn't miss her at all
As she walked through the door
I couldn't care less
If she didn't care anymore
And with tears in my eyes, I lied
I was glad we were through
As she drove away crying
At the famous last words of a fool
Famous last words of a fool
You won't break my heart
And I don't love you
Famous last words of a fool
The first night without her would be easy
I kept tellin' myself
Although I'm dyin' at the thought of her lyin'
Somewhere else
There'll be nothin' to it
I'll easily find someone new
As my breaking heart echoes
The famous last words of a fool
Famous last words of a fool
You won't break my heart
And I don't love you
Famous last words of a fool
