Uprising

Gentleman & Ky-Mani Marley

Dem wan divide and rule
It's a generation you can't fool

Uprising,
We army arising,
Say dem want to take it over, (a wah do dem)
So we got to run for cover,

Freedom fighters,
We keep surviving,
Let dem know we no pushover,
It's not over till it's over,

Tell me what this world is coming to,
I really got to know where we are running to, (yeah)
Say we try to find a place,
But we running out of space,
And what we are supposed to do, (oh-oh)

Somebody tell me please what we running from,
Is it the fighting or illusions about the ends of men, (yeah)
Time to find a common ground,
.....
Why can't we get along

Uprising,
We army arising,
Say dem want to take it over, (but they will never)
Say we got to run for cover,

Freedom fighters,
We keep surviving,
Let them know we no pushover, (never)
It's not over till it's over

To see unification is my greatest desire,
Bad minds and envy get cast in the fire,
.....,
The illusion and the fear,

Get burned with the thief and the liar,

Let's get together, the words of the Messiah,
Nuh single out, make we do this in a choir,
No man is an island,
No man stands alone,
Show love and let your live inspire,
Ky-mani...,

Uprising,
We army arising,
Say dem want to take it over,
Say we got to run for cover,

Freedom fighters,
We keep surviving,
Let them know we no pushover,
It's not over till it's over,

We've got to find a way,
We live to see the day,
Where there is no more oppression and no more depression, (no, eh)

So listen what I say,
From your works you shall get paid, (oh gosh)
With no more aggression, make love your possession,

Uprising,
We army arising,
Say dem want to take it over,
Say we got to run for cover,

Freedom fighters,
We keep surviving,
Let them know we no pushover,
It's not over till it's over, (never)

Uprising,
We army arising,
Say dem want to take it over,
So we got to run for cover,

Freedom fighters,
We keep surviving,
Let them know we no pushover,
It's not over till it's over,

(Unification's the key)
