

# One Night In The City

Dio

Oh, Johnny was a dark child  
He was promised to us all  
But rides in the night,  
But can lift you out of sight when they call, that's all  
My Sally was a princess  
And she was chosen for the crown  
But chains can't stop the sound  
Of one night in the city  
One night looking pretty  
Then someone opened doorways  
And Johnny slipped away  
Running for the bright,  
Where dark is always light  
But there's no day, no way  
The princess saw the dark child  
And the dark child said her name  
Come steal away, we'll play the game  
Do you watch, do you see  
Do you know the people in me  
I'm the bite, I'm the bark, I'm the scream  
I'm you poor, I'm you sure  
I'm you holy, I'm you pure  
I can tell you tales you just might not believe  
One night in the city, one night looking pretty  
One night in the city, one night looking pretty  
(One night) The children shared the wonder  
Of the leather and the lace  
But one child went away,  
And one child stayed to play  
For one night in the city  
One night looking pretty yeah  
One night in the city  
One night looking pretty yeah  
But chains don't make the wall  
And dreams lay where they fall  
Darkness in the night when dreams make up the light  
One night in the city, one night looking pretty yeah  
One night in the city, feeling pretty, pretty in the city  
One night in the city  
One night, one night, one night, one night  
One night in the city  
One night, one night  
One child went away and one child stayed to play  
Chains don't make the wall, dreams are lay just where they fall  
In the city, one night in the city
