American Flyers

Glenn Shorrock

Restless feeling, coming from inside
Nothings easy, mountains to climb
Take my chances, got a long way to ride
Pushing, pushing, pushing it right to the top
Ready or not

Let's go american flyer
You aim high, a race against time
I know his heart is on fire
Going the distance leaving the others behind

Got you covered, just say the word
Facing danger,around every turn
Moving faster, like an eagle I fly
Pushing, pushing, pushing it over the line
Made up my mind

Let's go american flyer
You aim high, a race against time
I know his heart is on fire
Race through the sky you fly

They can't hold you down (yeah)

Let's go american flyer
You aim high american flyer
I know, your heart is on fire
Going the distance leaving the others behind

American flyer

Let's go american flyer

Let's go american flyer
