Sign Of Love

Tom Faulkner

There's been something I've been trying
To see for sometime now
But I found myself rambling
Through all the wrong wordsI guess I'd known you so long
That I never really knew just our ways
'Til I find myself thinking of you
Whenever I'm with somebody elseI've had days of confusion
I've laid sleepless in vain
Just to find my way to you again
Do you understand?Please don't tell me the answers
Don't tell me what you're thinking of
Just tell me when you see a sign of loveDo you remember last year?
It was the first day of May
When we found ourselves staring
With nothing to sayWell, I've been wondering since then
What was going on through your mind
Now I thought this thing through
And I'm hoping that you can leave friends behindThough you seem like a sister
With the ways done to be
Still you look like a lover to me
Girl, can't you see?Please don't tell me the answer
Don't tell me what you're thinking of
Just tell me when you see a sign of loveHow the years can bring changes
Seems like nothing stands still
But I'm willing to try if you will
I'll wait if you willPlease don't tell me the answer
Don't tell me what you're thinking of
Just tell me when you see a sign of love
