I'm Only Human

[Hangnail](#)

There's just no way out of this one
Look what I've got myself into
Why do I always seem to find trouble
And do what trouble would have me do? YeahAll this time I've tried to keep my life straight in line
All the while my life keeps falling apart
Wish that I could become what my God had in mind
I guess what I'm doin' now makes me humanThought I knew all that I had
'Cos you never know until it's gone
Just one more thing for me to fix
Next time I know I'll get it right, yeahAll this time I've tried to keep my life straight in line
All the while my life keeps falling apart
Wish that I could become what my God had in mind
I guess what I'm doin' now makes me human
