Everywhere

Bran Van 3000

As long as we're getting a bit technical
I'd like to remind you that
Most women and children can perceive
Higher frequencies of sound than most menEverywhere I see your faces
Everywhere you sing your smile
And everytime you're not around
Doesn't matter 'cause you're everywhere to meEveryone you've ever known counts on you
Waits for you to come through
Don't you know that you're gonna break through?And everywhere you came and left
You came in the name of love
And left a wake of happiness and tenderness
And sweet conflict, sweet conflictYou hang around, you come on down
You come on down
And it's on and on and on and on
It's on, it goes onYou hang around, you come on down
And you don't come on downWhispering, whispering
Whispering your nameYou're everywhere, everywhere
Everywhere to me
Everywhere, everywhere
Everywhere to meCalling, calling, I'm calling your number
Calling, I'm calling your number
Calling, I'm calling your number
Calling your number, I'm calling your number, callingYou're everywhere
You're everywhere to me
Everywhere to me
