

Get Em Up

Stakka

This right here is payback from way back, I don't play that
This right here is payback from way back, I don't play that
This right here is payback from way back, I don't play that
This right here is payback from way back, I don't play that

Recognize a real dime when you see mine

And don't try and be one, ya fuckin' peon

I been like Dion for eons

You ain't nothin' but a biatch

Messed around and let me re-up

I come back through and tear the street up

Ice Cube, nigga, you better D up

And when I come by bitch, you better be up

Ass up, face in the pillow

I don't give a fizzle

Got to do my bizzle

The only nizzle that will never ever fizzle

Original, you niggas know

Gotta get 'em up

(Who wants some?)

You better get 'em up

(Come get some)

Gotta get 'em up

(Who wants some?)

You better get 'em up

(Come get some)

Gotta get 'em up

(Who wants some?)

You better get 'em up

(Come get some)

Gotta get 'em up

(Who wants some?)

You better get 'em up

I got to get withcha

Hit you with these things that I'm holdin'

Who wanna squab with the frozen

Now who wanna battle with the chosen?

You niggas lotion, I'm no emotion

I'm shrapnel from the explosion

Hit you in the face while you posin'

High as Jimi Hendrix
I lined up ten dicks
And took out appendix
So go get forensics
Let em know I'm Geronimo
Till it's my time to go
You better find your ho
Get your babies and your mama
And move to Guantanamo
Doubt my skills, I'm payin' my bills
I'm up in the hills, you niggas are kills
Even though I'm on a fucked up label
You bitches know what I can bring to the table

You gotta get 'em up
(Who wants some?)

You better get 'em up
(Come get some)

Gotta get 'em up
(Who wants some?)

You better get 'em up
(Come get some)

Gotta get 'em up
(Who wants some?)

You better get 'em up
(Come get some?)

Gotta get 'em up
(Who wants some?)

You better get 'em up

This right here is payback from way back, I don't play that
This right here is payback from way back, I don't play that
This right here is payback from way back, I don't play that
This right here is payback from way back, I don't play that

I like bitches like you
Find two wearin' light blue
The freak get high too
With a fly do
Not a Erika Bado
Thats lookin' for eye do
Now what can I buy you
Just to try you
Need another bitch to lie to
Need another bitch in my coupe
Oh please can I trouble you
For a double scoop
A nigga needs some T 'nd A
