

(Flying On The) Wings Of Love

Level 42

(M. Lindup/R. Gould/P. Gould/M. King/W. Badarou)

I was living in a daydream
Letting time and days pass by
I didn't know what I was missing
Until you came into my life
When I saw you pretty girl
Felt a glowing inside
When I kissed you pretty girl
I felt you light up my life I am flying
I'm on the wings of love
And I know that it comes from you my love Holding hands we walk together
Nothings gonna make us part
And our love will last forever
Its the song thats in our heart
Making love is oh so sweet
We're lost in eachothers eyes
And our bodies feel the heat
As the warmth starts to rise I am flying
I'm on the wings of love
And I know that it comes from you my love Now I'm living in a love dream
Time and days are passing by
Now I really know how love feels
I can't help smiling all the time
When you're with me pretty girl
I feel your warmth by my side
When you touch me pretty girl
It brings a joy I can't hide I am flying
I'm on the wings of love
And I know that it comes from you my love
