

# The Fix Is In

## Entombed

I was around when God was a boy  
Now I was the one who stole his favorite toy  
Pharaoh of fraud, now look at your goddamn king  
I take all being and you render it nothing  
Let the motherfucker bake You know that the war is on  
You know that it can't be won  
You know the fix is in  
You can't have the good guys win The fix is in  
The fix is in  
The fix is in Take on the throne  
And make it your own  
I said take on the throne  
And make it your own You know that the war is on  
You know that it can't be won  
You know the fix is in  
And you know that I always win You know that the good guys lost  
You know war is high on cost  
You know you cannot win  
And you know that the fix is in Heretic at the stake  
Let the motherfucker bake  
Heretic at the stake  
Let the motherfucker bake Heretic at the stake  
Let the motherfucker bake  
Heretic at the stake  
Let the motherfucker bake Heretic at the stake  
Let the motherfucker bake  
Heretic at the stake  
Let the motherfucker bake Heretic at the stake  
Let the motherfucker bake  
Heretic at the stake  
Let the motherfucker bake Heretic at the stake  
Let the motherfucker bake  
Heretic at the stake  
Let the motherfucker bake Heretic at the stake  
Let the motherfucker bake  
Heretic at the stake  
Let the motherfucker bake You know that the war is on  
You know that it can't be won  
You know the fix is in  
And you know that I always win You know that the good guys lost  
You know war is high on cost  
You know the fix is in

And you know that I always winThe fix is in

The fix is in

The fix is in

The fix is in
