

Never Let It Die (feat. Jussie Smollett & Yazz)

Empire Cast

Question my passion,
You question my judgment
Question my loyalty,
Oh oh oh
Question my devotion
But the question is what makes you
Think you can question me?
Oh oh oh See the music that's flowing through my veins
Is a gift to me from my family! Don't mess around,
You ain't gotta say it, you ain't gotta say it,
Feel it in your spirit every time you play it,
We become the reason the music is a vice
Take away the fam (family), and the music dies Oh, ooh ooh
The other ones can't pin this alive
Oh, ooh ooh
Without the family, the music dies
Never let the music die,
Never let the music die,
Let it die
Never let the music die,
Never let the music die,
Let it die You don't wanna stand, you don't wanna stand,
I am not the man, I employed the man
I do not pretend, I do not pretend
I am every single thing I say I am
Music got me feeling like I'm superman
Flying through the air, looking down on your residence
Coming through your speaker, and I know you're loving it
If I went away you'll trip like where the hell I am?
I know, I know you need me
I know you need me
I set the sentence 'cause the sentence is where we'd be
If you approach a hungry lion you will see teeth
Nobody messin' with the family You ain't gotta say it, you ain't gotta say it,
Feel it in your spirit every time you play it,
We become the reason the music is a vice
Take away the fam (family), and the music dies Oh, ooh ooh
The other ones can't pin this alive
Oh, ooh ooh

Without the family, the music dies

Never let the music die,

Never let the music die,

Let it die

Never let the music die,

Never let the music die,

Let it die We're a family

(Never let it die)

Addicted to music

No, no no

Don't ever let it die

(We're the lions!)
