

Just Another

Blanks 77

Johnny signed his name
on the dotted line
his daddy knew what was best for him
he told him he'd be fine
but he had his doubts
what's life all about
what have I dont
sold his car for a gun
He was taught to kill and how to be a man
how to kill the commies out in Iran
now your time has come, boy
you have passed the test
here's your tag and #
go and kill the best
he was just a statistic
just another killing machine
no one cared if he lived and died
he was just part of the scheme
Johnny was sent to fight a war
he never came back
they said he was M.I.A
caught under attack.
