Kitten With A Whip

Kitten

She's out for kicks
She's a kitten with a whip
She takes the littlest sips from the prettiest lips
She's a kitten with a whip
And when it's trouble downtown
I'm the queen of the crown
Don't want you coming around when there's trouble downtown
I'm the queen of the crown
Kitten, with a whip
She likes the rock and roll
She likes the sweet box south
And like a dog with a bone you want to eat her whole
She likes the rock and roll, oh
She's playing tricks all night
And baby likes to fight
And with the light in her light she's playing tricks all night
She's electrified
Kitten, with a whip
Kitten, with a whip
With a whip
She's in that movie with Elvis
They race cars in that scene
Viva Las Vegas
But with the king
She is the music
And the tambourine
You ain't got nothing on her
Long live the queen
Kitten! Kitten!
She's out for kicks
She's got mama's hips
She takes the littlest sips from the prettiest lips
She's a kitten with a whip
You're a kitten
I'm a kitten
You're a kitten
I'm a kitten
With a whip
With a whip

With a whip
