

Do You Love Me

Chuck Berry

My first and only love
I do sincerely ask of you
The one and only question
That my heart is wondering to Do you love me?
Do you mean the things you say?
If you love me baby, you won't treat me this way
Don't treat me this way I tried so hard to prove to you
That my love for you is real
You never say sweet things
To try to change the way I feel Do you love me?
Do you mean the things you say?
If you love me, baby, you won't treat me this way
Don't treat me this way Do you love me?
Do you mean the things you say to me? I never asked you were you've been
Or where you want to go
But now the time has come, my dear
When I've got to know Do you love me?
Do you mean the things you say?
If you love me, baby, you won't treat me this way
Don't treat me this way This way
This way
This way
