Exposure

Love Like Blood

I want to see you exposed
I want to hear the real truthlay your head into my hands
let me know the real truth
let your soul just talk to me
what you really want to be
let's relive the day of birth
with all the original painpain, pain,
deep inside of your soul,
deep inside of your soullet me help to find yourself
try to find who you really are
you think you need a big elbowroom
on your trip you're the superstarfeels like a hole deep inside of you
feels like a hole deep inside of you
pain, painyou are hungry, but you don't know why
you are searching, but you don't know what
like you've lost something - don't know what it was
pain
deep inside of your soul,
deep inside of your soul
feels like a hole deep inside of you
feels like a hole deep inside of you
