Seamless

Sabrina Carpenter

Good morning, you're leaving

I'll see you in the evening

My best friend till the end

My better half no pretend

Our language is sacred

No people try to solve it

New adventures on the wayYou and me together

Take on the world forever

I know all your secrets

And I promise you I'm gonna keep them

I'll be there when you are feeling clueless

You and me, oh yeah we're seamless

Woah oh, yeah, woah ohWe're klutzy, but so lucky

That I always have you to catch me

We're partners in crime

You're stuck with me your whole life

So different, out of our minds

From a planet that's hard to find

Every second every dayYou and me together

Take on the world forever

I know all your secrets

And I promise you I'm gonna keep them

I'll be there when you are feeling clueless

You and me, oh yeah we're seamlessYou're right by my side whenever I need you

Through the hardest times

I'll be there for you

At the crack of dawn when the moon is gone

I won't be hard to find

'Cause you and me, oh yeah we're seamlessYou and me together

Take on the world forever

I know all your secrets

And I promise you I'm gonna keep them

I'll be there when you are feeling clueless

You and me, oh yeah we're seamless

Woah oh, woah oh
