

Girls Can Change the World

PureNRG

Have you heard the rumor?
Do you think it's true?
He said, she said
It's all over school It's drama, I can't believe that
Everybody's talking
About someone else
Just to feel better about themselves Come on now
Girls of the world unite
Nothing's gonna change
If all we do is fight I think it's time that
We turn some things around
We gotta stop trying
To tear each other down If we shine
If we share the love we found
Girls can change the world
Girls can change the world There's more to us than what you think
We play football, we wear pink
It's obvious, we can do anything Don't you think we can just get over?
Trying to be better than each other
Come on, girls of the world unite
We can work together if we try I think it's time that
We turn some things around
We gotta stop trying
To tear each other down If we shine
If we share the love we found
Girls can change the world Ooh, you gotta believe
Love can change everything, yeah I think it's time that
We turn some things around
We gotta stop trying
To tear each other down If we shine
If we share the love we found
Girls can change the world I think it's time that
We turn some things around
We gotta stop trying
To tear each other down If we shine
If we share the love we found
Oh, girls can change the world Yeah, yeah
Girls can change the world
